

(1) Polymorphic site, ARG mode

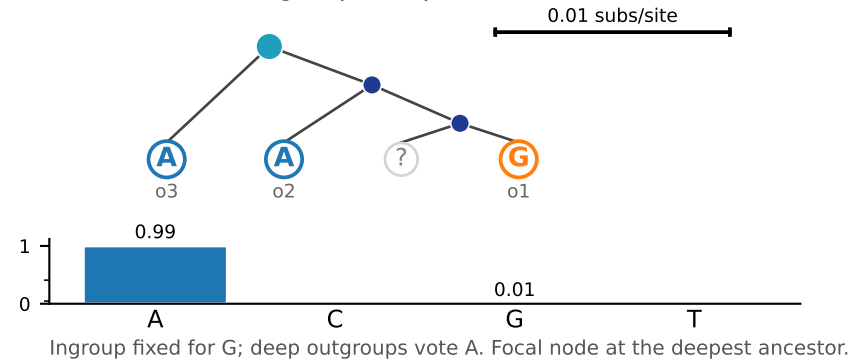

(2) Polyallelic site (3 alleles)

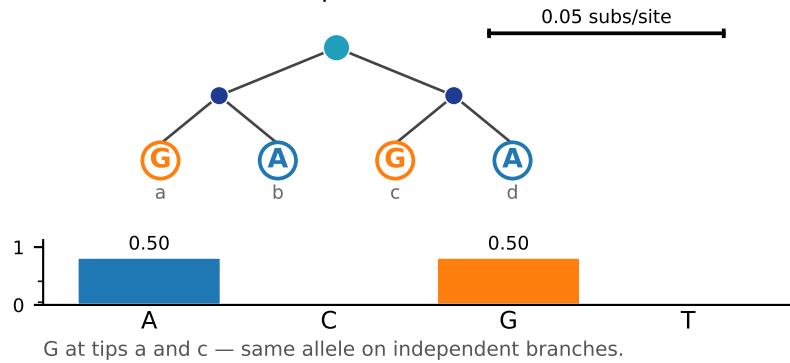

(3) Missing outgroup tip

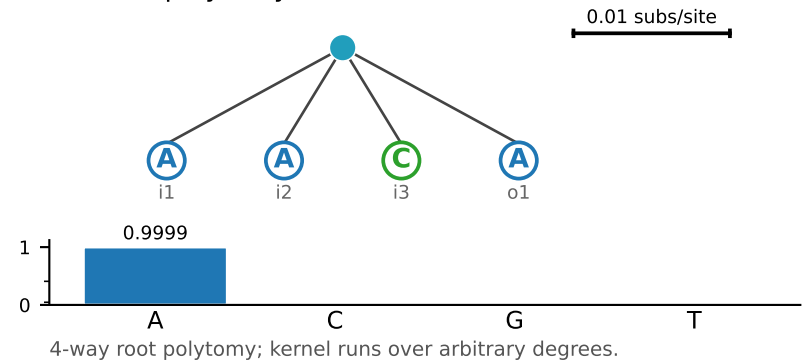

(4) Monoallelic ingroup, deep-rooted ladder tree

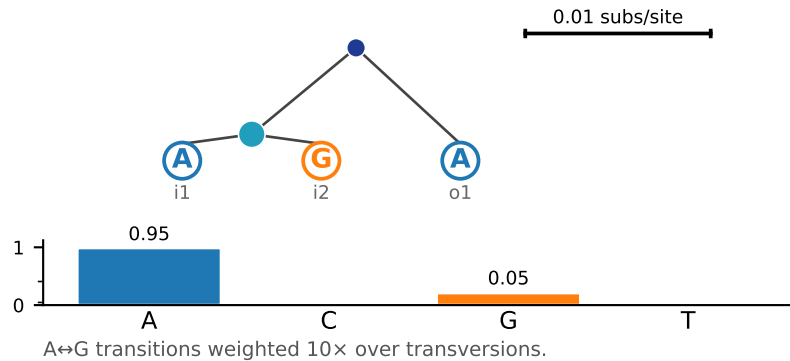

(5) Recurrent / homoplastic site

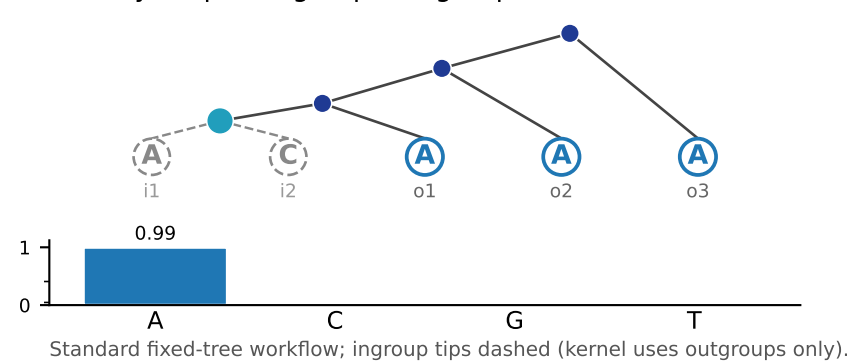

(6) Root polytomy

(7) K2 with $\kappa = 10$ (transition bias)

(8) Polymorphic ingroup, OutgroupLadderTree

● focal node (posterior reported here) ● internal node ○ tip with no observed allele --- ghost ingroup tip
